

NEOLAC AQUA

PACKAGING

0.75L / 3.75 L

DRYING TIME

1-2 Hours

CONSUMPTION

7-8 m²/l

Description

NEOLAC AQUA is a water-based, top-quality decorative varnish for internal and external use that is suitable for applications on properly prepared wooden surfaces.

Application

Easy to apply by brush, roller or spray. It gives a shining area and excellent resistance to weathering agents. It can penetrate inside of wood surfaces, protected from bacteria and insects. Before used, the surface must be clean from dusts. Do not apply at temperatures below 5°C and above 35°C and/or relative humidity above 80%. It should be diluted with NEON NW-13.00 or NEON NX-20.00 or NC-10.00 at 10%-20%. NEOLAC AQUA covers 7-8m²/l over a normal, smooth surface.

TECHNICAL DATA

Density	1.25 kg
pH	8-9 (23°C)
Bonding Strength	2.0 N/mm ²
Capillary water absorption	0.05 kg/m ² h 0.5
Viscosity	15-20
Drying Time	1 Hours
Recoat Time	4-6 Hours
