

NEOLAC AQUA

PACKAGING

0.75L / 3.75 L

DRYING TIME

1-2 Hours

CONSUMPTION

10-12 m²/l

Description

NEOSTAR AQUA is a water-based, undercoat primer for interior and exterior woodwork. It is ideal for use as a primer for softwoods, hardwoods, chipboard and fibre board. NEOSTAR AQUA can also be used as an undercoat for woodwork that has been previously primed or painted with either solvent- or water-based paint.

Application

NEOSTAR AQUA can be applied with a brush, roller or spray. Stir thoroughly before use. Treat any knots in wood with an appropriate knotting solution. Allow to dry for a minimum of 2 hours between coats.

NEOSTAR AQUA consumes 10-12m²/L, depending on the surface.
